CAREER OBJECTIVE

Results-driven BCA student proficient in Java, C++, JavaScript, and web technologies, seeking a fresher Software Developer or Web Developer role. Proven ability to build real-world projects and solve algorithmic challenges, with a strong commitment to contributing to innovative IT solutions and growing within a collaborative environment.

EDUCATION

L.N. Mishra College of Business Management	Muzaffarpur, Bihar
<i>Bachelor of Computer Applications (BCA) – Computer Applications & Software Development</i>	<i>July 2023 – June 2026</i>
S.K. Mother International School (CBSE Board)	Bihar
<i>Senior Secondary (XII) – 67.4%</i>	<i>2023</i>
GD Mission Public School (CBSE Board)	Bihar
<i>Secondary (X) – 62.8%</i>	<i>2021</i>

TECHNICAL SKILLS

Programming Languages: Java, C, C++, Python, JavaScript
Web Technologies: HTML, CSS, JavaScript, MySQL, React (learning)
Core CS Concepts: Object-Oriented Programming (OOP), Data Structures, Algorithms, DBMS
Tools & Platforms: GitHub, MySQL Workbench, GeeksforGeeks, HackerRank, LeetCode, CodeChef

PROJECTS

Elevator System Simulation <i>Java, OOP, File Handling</i>	2024
- Designed a multi-floor elevator simulation using Java and OOP principles with a modular, maintainable architecture. - Implemented scheduling algorithms and file handling for system logging and state persistence across sessions. - Developed dedicated classes for elevator logic, floor management, and request handling, improving code efficiency.	
Amazon Clone <i>HTML, CSS, JavaScript, Responsive Design</i>	2024
- Built a responsive e-commerce website featuring product listings, shopping cart, search, and filter functionality. - Implemented mobile-first layouts using CSS Grid and Flexbox, ensuring cross-device compatibility. - Added dynamic product display and user interactions using JavaScript for an enhanced shopping experience.	
Personal Portfolio Website <i>HTML, CSS, JavaScript, GitHub Pages</i>	2024
- Created and deployed a professional portfolio showcasing projects and technical skills with an interactive UI. - Implemented responsive design with smooth animations optimized for all device types. - Deployed on GitHub Pages, demonstrating proficiency in version control and CI/CD deployment workflows.	

CERTIFICATIONS

- Infosys Springboard – Java Programming Fundamentals (April 2026)
- Infosys Springboard – Introduction to NoSQL Databases (April 2026)
- Accenture Australia – Technology Consulting Job Simulation
- YHILL Java Program Certificate

ACHIEVEMENTS & ACTIVITIES

Competitive Programming: Active participant on HackerRank and LeetCode, regularly solving algorithmic challenges.

Professional Development: Completed Accenture Technology Consulting and Deloitte Data Analytics job simulations.

Tech Engagement: Participated in multiple technical seminars, workshops, and coding competitions.

Open Source: Actively maintaining multiple project repositories on GitHub.

Continuous Learning: Self-studying React, cloud computing, and mobile app development technologies.
